## unique database of KPI benchmarks

- 1 big data access**  
performance KPIs from 65,000+ wells and 1,800 rigs
- 2 selective filtering and grouping**  
compare KPIs between similar rigs working on similar projects
- 3 high-granularity level**  
decrease project cost and increase time estimation accuracy
- 4 data processed and quality controlled by tde**  
entire dataset is QCed using the industry leading standards of tde
- 5 upgrade your tde digital well delivery suite**  
boost accuracy of your tde digital workflow

**tde reviews** enables global KPI benchmarking collaboration, improving the rig selection process by reducing risk and maximizing efficiency. **tde reviews** boosts the value of existing proNova data to accelerate the well planning process.
